

BRITISH INVADERS DRIVEN TO THE SEA

Conflicting Accounts Given of Abandoning the Campaign in Gallipoli

(By Associated Press.)

LONDON, Dec. 21.—Russia has brought sixteen transports, filled with soldiers off Varna, the Bulgarian Black sea port, under escort of a cruiser, and two destroyers. The warships are bombarding Varna vigorously, according to an Athens dispatch. Constantinople's accounts of the British withdrawal from Gallipoli assert that the invaders were driven to the sea by a Turkish general offensive after suffering heavy losses. British accounts relate that the withdrawal was effected with few casualties. The Albanian port of Durazzo is said to be the latest objective of the Teutonic-Bulgarian campaign in the Balkans. Strong forces are believed to be marching across Albania in an effort to forestall Italian occupation of the coast.

BANKERS AND BROKERS SEEK TO CAST ASPERSIONS UPON EACH OTHER

To hear the bankers discuss the brokers and the brokers talk about the bankers, one would imagine that a lot of cripples and physical freaks were to engage in the preliminary game of basketball tomorrow evening at the high school gymnasium. Here's what one hears around the Corporation bank:

"Those fellows up on the row won't make a basket. They're too short." "If Eppie with his perfect 96 ever fell down, he couldn't get up again, and as for those Brown children, they are afraid one of our huskies might slap them on the wrist and they'd have to go to the hospital. As for Skinner, he trained too long with Bacon to ever be able to take any of it home with him."

"What a punk lot those Corporation bankers are," said a broker to the Bonanza. "They have been sitting around amid those drafts so long that they couldn't even catch cold, much less a basketball. I understand that Gregory threw a Charley horse and is practically down and out. Dugan has a lame wrist through holding hands so long in the moonlight. There's something seriously wrong with Goetz, but it would require a brain specialist to tell what it is. He plays basketball like he cancels a check, with a punch instead of a toss. Poor old Monahan. He's thirty pounds overweight and can't train down, while Kearns is thirty pounds under and can't train up. It looks like a walkover for us."

MARY ROLETTO IS CALLED BY DEATH

SCHOOL GIRL PASSES AWAY AFTER ILLNESS OF SIX MONTHS

After hovering on the brink of death for days, Mary Roletto died at 5 o'clock yesterday afternoon at the county hospital, where she was a private patient. She was only 15 years of age and was a pupil of the public schools until about six months ago, when she was stricken with appendicitis. An operation was performed, but she never fully recovered her health. The young girl was taken to the hospital. A second operation was performed Friday, but the surgeons realized even then that the case was hopeless. For the last sixteen hours she was unconscious.

Mary Roletto was the daughter of Mr. and Mrs. G. Roletto. The father died about a year ago at Gold Coast, Africa. She is also survived by two sisters, Mrs. A. L. Stone and Mrs. Al Vincent, both of Tonopah. She has also an uncle in Canada, and two uncles in the Italian army.

The body will be taken to the Knights of Columbus hall tomorrow morning at 10 o'clock, where it will remain until the funeral, which will be held at 2 o'clock Thursday afternoon from the Catholic church. The interment will be in the Tonopah cemetery, in the Catholic plot.

THREE-FOURTHS BIRTHS ARE OF MALE SEX

STRANGE RESULT OF WAR, AC- CORDING TO SCIENTISTS OF ENGLAND

(By Associated Press.)

LONDON, Dec. 21.—In the births column of one of the London newspapers three-fourths of the births announced are of the male sex, according to a correspondent who puts forth the theory that there are more boys than girls born during war times.

The registrar general's department, however, does not encourage this theory, as on being questioned on the subject, the following statement was elicited:

"After the only great war the nation has waged since accurate statistics have been recorded, the Crimea, there was no marked increase in the proportion of boys. The excess of boys over girls during the years 1851 to 1860, which included the war, was less in fact than during the previous ten years."

CALIFORNIA LUBRICANTS WANTED IN THE EAST

"The shipment of California lubricants to eastern and middle west markets by the Standard of California is increasing greatly. No figures whatever are available as to the extent of this trade, but there would be great surprise if there were such figures published, says the California Oil World.

Zerolene lubricants have gone east in large quantities by both train and ship. The engineers of several leading auto manufacturers have pronounced in favor of asphalt base oil for lubricants and consumers are learning its advantages. One advantage claimed for lubricants properly made from asphalt base oil is an immense superiority in withstanding cold weather, a very important factor in the north and east. And there is not enough asphalt oil in the east to supply the demand once the consumers all preceive this. Abroad, it has long been known that the Russians have made the best lubricants by far for withstanding cold, and their oil is asphalt base like California's. It is even said that some California lubricants shipped east have found their way back here blended with eastern and under new brands."

CARD SYSTEM OF IDENTIFICATION

PLAN BY WHICH TRAVELERS MAY BE SPARED DIFFICUL- TY AND EMBARRASSMENT

A system of introducing travelers to hotel managers, so that they will not be subject to embarrassment and difficulty in cashing checks, has been devised by James Woods, manager of the St. Francis hotel, San Francisco. It is being exemplified in Tonopah today by Thomas J. Pearce, who is stopping at the Mirpah.

Mr. Pearce says that his system is not in any way an insurance against loss, but the cards of identification will not be given out except to reputable people, those who have proven resources in bank to cover their checks. While the hotels accepting the system will cash checks for all who hold these cards, they will not act at all times as identification at banks, although they will assist in identification.
